

Product: LUBROIL MM

General characteristics: Sulphonated and sulphited oils

Chemical nature:

pH in 10% solution:	6,0-7,0
Active material:	60,0 ± 1,0%
Chrome stability:	Scarce
Electrolyte stability:	Good
Solubility in water:	Easily soluble
Charge:	Anionic
Appearance:	Brown-yellow fluid

Fields of use: Generally for soft articles

Properties:

LUBROIL MM is a general purpose fatliquor useful for every kind of article where softness and roundness are requested.

This particular fatliquor, when diluted, shows a very thin emulsion that lubricates the fibres, so increasing tear resistance of the leather.

LUBROIL MM can be applied combined with every anionic fatliquor.
