

**Product:** LUBROIL PS

**General characteristics:** Pure sulphonated oil

**Chemical nature:**

**pH in 10% solution:** 6,0-7,0  
**Active material:** 70 ± 1%  
**Chrome stability:** Scarce  
**Electrolyte stability:** Good  
**Light fastness:** Excellent  
**Solubility in water:** Easily soluble  
**Charge:** Anionic  
**Appearance:** Amber viscous liquid

**Fields of use:** For chrome and vegetable tanned leathers where roundness and fullness are requested

**Properties:**

**LUBROIL PS** is produced with a strong sulphonation process that permits to reach an high grade of combined SO<sub>3</sub> without any repousse problems.

**LUBROIL PS** is light fast so we suggest to use it for the production of white and pastel colour articles.

**LUBROIL PS** is particularly indicated for fatliquoring cow and precious articles where gives softness, fullness and roundness.

**LUBROIL PS** doesn't decrease dyeing intensity, so we suggest its use also for suede or nubuck where brilliance and fullness are important.
